Senior Instructional Designer | Enterprise eLearning | AI-Enabled Learning

PROFESSIONAL SUMMARY

Senior Instructional Designer and Learning Consultant with extensive experience leading large-scale enterprise software training initiatives across federal, DoD, healthcare, financial services, logistics, and corporate environments. Skilled in Train-the-Trainer program design, virtual and in-person instructor-led training delivery, and enterprise platform rollouts for large, geographically distributed workforces. Proven ability to collaborate with program leadership, SMEs, and cross-functional teams to translate complex software workflows into practical, adoption-focused learning that drives performance. Experienced supporting enterprise AI and software adoption initiatives, using AI-enabled tools to accelerate development while maintaining instructional quality and technical accuracy.

EDUCATION

Bachelor of Arts in English Literature | LeMoyne-Owen College

TECHNICAL SKILLS

Authoring & Multimedia: Articulate Storyline 360, Rise 360, Adobe Captivate, Camtasia, Adobe Creative Suite (Premiere Pro, Photoshop, Illustrator, After Effects), ElevenLabs

Learning Platforms: Premier LMS, Cornerstone LMS, FedLearn, SuccessFactors, Blackboard

Project Tools: Jira, GitLab, Google Sheets, SharePoint, MS Project, Smartsheet

Methodologies: ADDIE, SAM, Learning Engineering, Human Performance Technology (HPT), Universal Design for Learning (UDL), Bloom's Taxonomy, Backward Design, Agile, Waterfall

PROFESSIONAL EXPERIENCE

Customized Training Solutions | *Senior Instructional Design Consultant* | November 2025 – Present

- Provide instructional design consulting for corporate and government clients, developing eLearning, blended learning, ILT/VILT, and self-paced solutions aligned with business and accessibility requirements.
- Conduct learning needs analyses, identify performance gaps, and create interactive experiences using Storyline 360, Rise 360, Camtasia, Adobe Creative Suite, and AI-enabled tools.

Ampcus Inc., Federal Reserve Board | *AI Courseware Developer Specialist (Contract)* | September 2025 – November 2025

- Applied Learning Engineering principles while supporting an enterprise AI adoption initiative in a fast-paced Agile environment spanning seven cross-functional workstreams; designed learning for MartinAI and Cline, an AI coding assistant within VS Code.
- Developed multimedia software training in Storyline 360 and Rise 360, incorporating video simulations and Adobe Premiere Pro editing to demonstrate workflows and AI-assisted coding scenarios.
- Partnered with technical writers, Scrum Masters, SMEs, and stakeholders to transform documentation into curriculum, incorporate iterative feedback, and adapt deliverables to shifting priorities.
- Created adoption plans, communications, implementation schedules, and curriculum rollout plans; published and tested content in FedLearn before enterprise deployment.

CSL Plasma | *Instructional Designer (Contract)* | April 2025 – June 2025

- Applied Backward Design and Universal Design for Learning (UDL) principles to convert legacy Captivate courses into accessible Storyline 360 learning, aligning course structure with intended outcomes while improving navigation, course flow, accessibility, and learner experience.

- Updated graphics and layouts while preserving brand and style standards; published SCORM packages for stakeholder review and quality assurance.
- Collaborated with project stakeholders to incorporate feedback and deliver consistent, high-quality learning assets on accelerated timelines.

AmeriHealth Caritas | *Instructional Designer (Contract)* | April 2024 – December 2024

- Applied Human Performance Technology (HPT) principles to design self-paced Rise 360 courses and Storyline 360 software simulations supporting Verint, a career coaching platform used by leaders and employees.
- Created storyboards, scripts, assessments, knowledge checks, scenario-based activities, and Camtasia video demonstrations that translated software workflows into learner-centered experiences.
- Wrote narration scripts and selected ElevenLabs AI voices to support professional audio delivery, engagement, and accessibility.
- Collaborated with SMEs and stakeholders throughout a Waterfall lifecycle to gather requirements, manage reviews, and incorporate feedback into final deliverables.

ttcInnovations | *Instructional Designer Consultant (Contract)* | December 2023 – April 2024

- Designed enterprise onboarding and compliance learning for Bank of America, aligning content with operational processes and workforce readiness goals.
- Collaborated with cross-functional teams in an Agile environment to gather requirements, review assets, and implement iterative improvements.
- Facilitated virtual instructor-led training sessions for onboarding and compliance content across a Fortune 500 mortgage banking organization.

Customized Training Solutions | *Senior Instructional Design Consultant* | December 2022 – November 2023

- Provided instructional design consulting for corporate and government clients, developing eLearning, blended learning, ILT/VILT, and self-paced solutions aligned with business and accessibility requirements.
- Conducted learning needs analyses, identified performance gaps, and created interactive experiences using Storyline 360, Rise 360, Camtasia, Adobe Creative Suite, and AI-enabled tools.

Cybermedia Technologies | *Lead Senior Instructional Designer* | November 2020 – December 2022

- Led instructional design for the U.S. Department of Defense and Defense Acquisition University, delivering 15 DoD-requested blended learning solutions spanning eLearning, VILT, and ILT that reached diverse learner groups and increased participation and enrollment by 25%.
- Applied ADDIE, Bloom's Taxonomy, and Kirkpatrick; created storyboards, scripts, facilitator and participant guides, assessments, knowledge checks, and performance-based activities.
- Recorded and incorporated firsthand accounts from military SMEs and designed a panel graphic novel to strengthen authenticity, engagement, and knowledge transfer.
- Applied SAM principles through iterative design and stakeholder review cycles, presenting recommendations, incorporating feedback, and rapidly refining learning solutions; mentored eight Instructional Designers on DoD style guide standards, improving standardized learning development compliance by 40%.
- Published and maintained learning assets in Cornerstone LMS within a Waterfall project environment.

International Paper | *Enterprise Learning Analyst* | June 2019 – October 2020

- Administered Premier LMS for a global workforce, maintained course functionality and learner access, resolved support tickets, and analyzed compliance, assignment, completion, assessment, and feedback data.
- Trained global super users to develop and publish eLearning using Premier's built-in authoring capabilities; also developed Storyline and Captivate courses and deployed SCORM content.
- Managed the department SharePoint site, including training communications, system updates, development resources, and the internal learning repository.
- Recommended the transition from classroom to virtual learning during COVID-19 and, after approval, developed and facilitated the virtual curriculum, reducing onsite travel costs by 50% while increasing enrollment by 35% and feedback satisfaction by 50%.

Enclara Pharmacia | *Instructional Designer Consultant (Contract)* | October 2018 – June 2019

- Designed and developed an internal PTCB certification preparation program that equipped pharmacy technicians with the knowledge and resources to prepare for the Pharmacy Technician Certification Board examination.
- Partnered with Human Resources to integrate the preparation program into a career development initiative supporting certification readiness and employee retention.
- Developed eLearning, call scripts, healthcare compliance content, job-based scenarios, interactive activities, and blended ILT/self-directed learning for pharmacy employee onboarding and call center operations.
- Facilitated virtual instructor-led training sessions for employee onboarding and PTCB certification preparation.

FedEx World Technology Center | *Technical Writer (Contract)* | April 2016 – October 2018

- Partnered with engineers and business analysts in an Agile IT environment to translate Archer software user stories into Quick Start Guides, participant guides, eLearning, and performance support.
- Managed release communications on SharePoint for global super users and pilot teams, including enhancement updates, documentation, and implementation resources.
- Facilitated global release-readiness meetings to review enhancements, gather tester feedback, and incorporate approved user stories into learning assets.
- Designed and facilitated virtual instructor-led training for global users adopting new software enhancements.
